Dear Ms. Dortch:

On September 7, 2017, Starry, Inc., represented by Chet Kanojia, Chief Executive Officer and Virginia Lam Abrams, Senior Vice President of Communications & Government Relations, participated in a meeting at the Federal Communications Commission ("FCC" or "Commission") with FCC Commissioner Brendan Carr and Acting Legal Advisor for Wireless and Public Safety, Kevin Holmes.

During the meeting, Starry briefed Commissioner Carr and Mr. Holmes on Starry's proprietary 5G fixed wireless technology and the company's deployment progress. Starry discussed in detail its technology architecture and shared its experiences building out and operating its network in Boston.

During the meeting, Starry reiterated its support for moving forward expeditiously on promulgating rules for sharing in the lower 37 GHz band as proposed in the *Spectrum Frontiers Report & Order*. Starry shared its perspective that enabling this small portion of spectrum to be utilized for commercial sharing would create significant opportunities for new entrants to develop innovative technologies in these bands and would also unleash immediate capital investment in this sector.

Starry also responded to Commissioner Carr's questions regarding its comments in the *Improving Competitive Broadband Access to Multiple Tenant Environments and Business Data Services in an Internet Protocol Environment* proceedings.

Pursuant to Section 1.1206(b)(2) of the Commission's rules, an electronic copy of this letter is being filed for inclusion in the above-referenced docket. We have also provided a copy of this letter electronically to all Commission personnel who were in attendance. Please contact the undersigned with any questions.

Respectfully submitted,  
Virginia Lam Abrams
